You are not alone.

Brain Injury Alliance of Washington is here to help you navigate your child's individual path.

We will help you with every step, from:

- Our toll-free Resource Line offering support, information and referrals to quality providers.
- Providing education on Brain Injury.
- Helping you create a plan and monitoring the progress of your child.
- Providing you with resources to enhance and support your caregiving.

Our one-to-one Pediatric Resource Managers can help with:

- Medical appointments and assisting in gathering medical records.
- Applying for governmental assistance or seeking financial aid/low cost services.
- Transportation planning.
- Connection to educational support, appropriate medical care and additional social services.

1-877-982-4292

Services of the Resource Center are **free**

The Brain Injury Alliance of Washington is YOUR community.

We connect the family team, school academic team, and medical team—to provide a safety net for all children who sustain a brain injury. We help with school integration, education and teacher training about Brain Injury. We will help you create a plan that leads to your child's ultimate success in school, and in life.

Our pediatric program supports children from 3 to 18 or in secondary school, and BIAWA is here for the lifespan, with resources available into adulthood.

“I am going to finally get some **real answers** and **education** for my son.”
